## Announcements Changing permission settings for groups

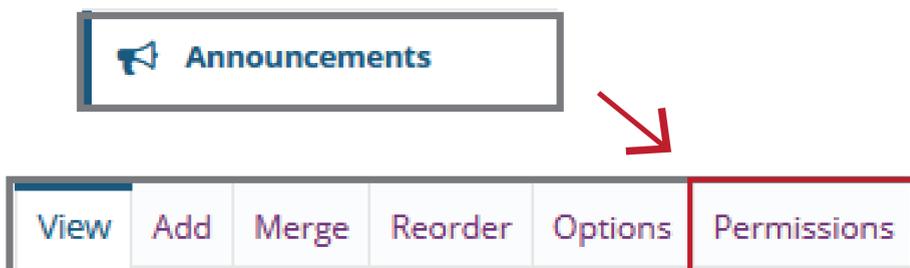

At times it may be necessary for a lecturer to give permission rights to student groups, e.g. SI's or class representatives to post announcements.

Follow the steps below to see how this can be done:

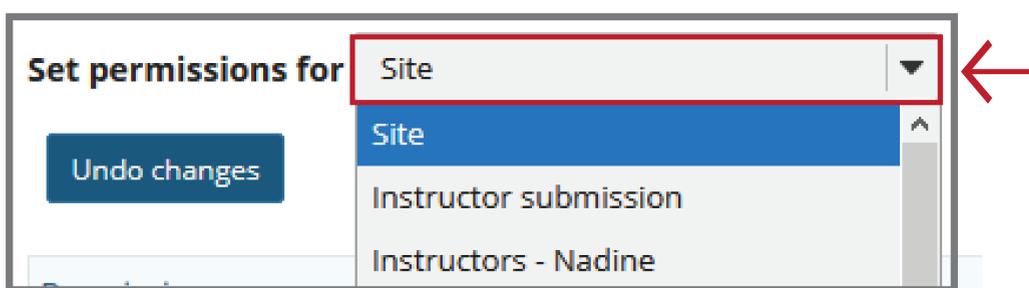

- 1 In Site Info under the Manage Groups, function create a group for your class representatives or SI/s

- 2 In Announcements go to the Permissions function

- 3 From the drop-down menu in 'Set permission for ...', choose the applicable student (or otherwise-) group

- 4 Under the column for "Student" choose the permission settings you would like to give them.  
As a suggestions, choose: Read, Create, Delete Own, Edit Own
