

## eFundi Tutorial: Commons

Commons is a social networking style tool allowing posts with url to thumbnail expansion, and unthreaded replies, **similar to Facebook posts**. It may be used as an alternative to other communication tool options, such as Comments in Lessons, or Forums.

*Note: Commons does not support grading or other more advanced Forums features, such as threaded discussions, group permissions, availability dates, etc.*

## How to access the Commons tool

[Back to index](#)

Select **Commons** from the Tool Menu of your site.

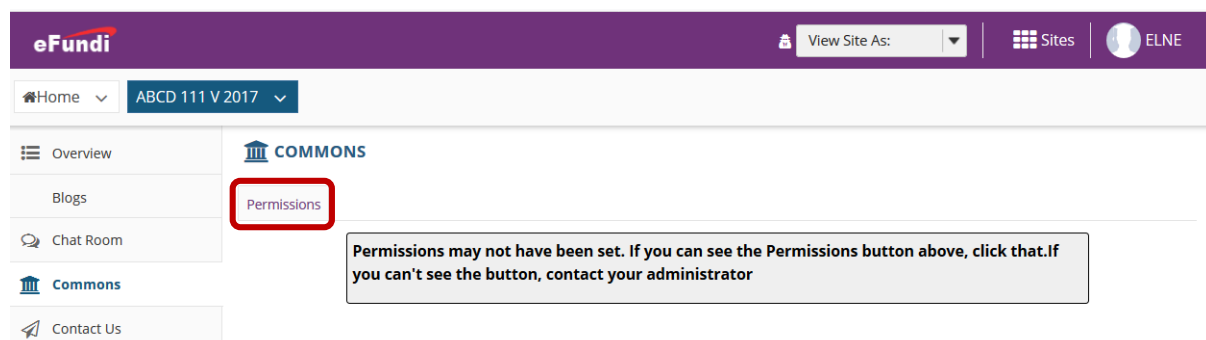

What if you cannot see the Commons tool? [Click here](#) for the steps to add a tool to your site.

## How to edit the Commons tool permissions

[Back to index](#)

Go to your **Commons** tool on your course site. The first time you access the Commons tool, you will get a message that you do not have permission to use the tool yet.

Click the **Permissions** tab at the top of the page to set the permissions.

Set the Permissions for each role on the site by selecting the relevant check boxes, then click **Save**.
