

## eFundi Tutorial: Test & Quizzes

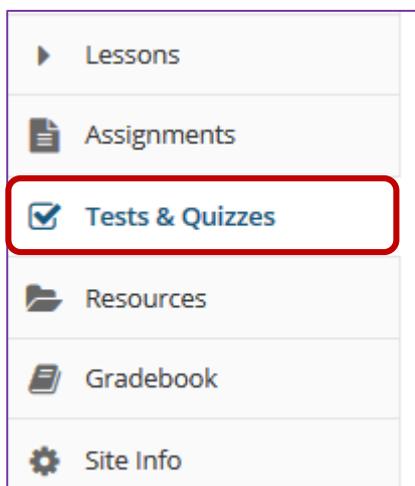

### How do I add a question to a question pool

A question pool consists of questions developed in advance and saved for use in assessments.

### Step 1: Go to Tests & Quizzes

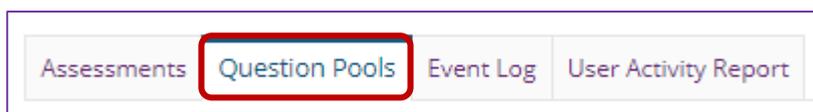

Select the **Tests & Quizzes** tool from the Tool Menu in your site.

If this tool is not visible on the left, it still needs to be added by the site Instructor.

For steps in adding a tool to your eFundi site access the tutorial on *How to add/remove tools on a site* from the [Support tutorial site](#)

### Step 2: Click Question Pools

### Step 3: Select the pool

Select the pool that you wish to augment by clicking on its name

## Question Pools

Keywords

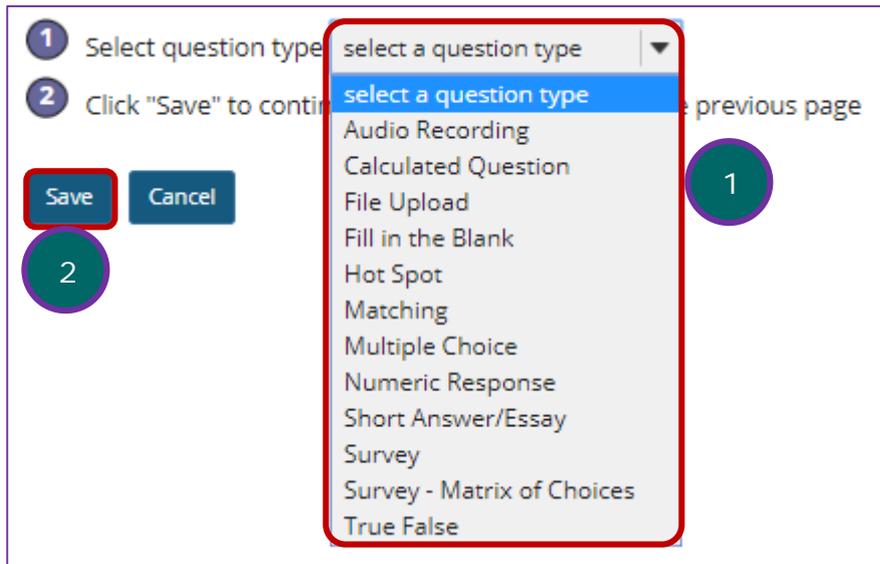

**0 Subpools** [Add Subpool](#) | [Preview](#)

**0 Questions**

|  |

You will see the question pool details, and links for adding subpools and questions. In the Questions section, click the **Add Question** link on the right hand side of the screen.

## Step 5: Create a new question by choosing its type

All of the standard question types are available in the drop-down menu. (See the help articles on individual question types for more information on adding specific types of questions to the pool.)

1. Select the type of question you want to add.
2. Click **Save**.
