

Conditionally registered senior students can access eFundi as temporary students.

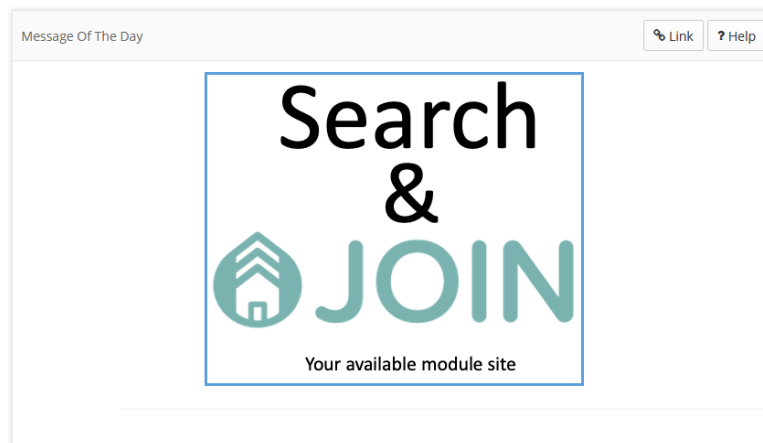

Such access indicated on eFundi is temporary until registration status is changed within the stipulated timeframe (15 March).

Please note that eFundi is zero-rated and thus accessible to conditionally registered students who do not yet qualify for data provision or for returning to campus.

HOW TO:

Step 1:

On the Home page in eFundi, once you have logged in - you will see a Search & Join your available module sites link under the 'Message of the day' section (right-hand side of the screen) – follow this link. You will be taken to a list of joinable sites.

Step 2:

Make sure the Joinable sites tab at the top of the screen is selected.

Step 3:

Search for and join the sites for the modules you intend to register for. These sites will now be displayed on your sites list at the top right of the screen.

 For additional assistance on joining a site please look at this [tutorial](#).

- Please take note: You will be joined to these sites as a Temporary Student. Your status (role) in the site will change as soon as you finalise your registration. If your registration has not been finalised by the specified date, you will automatically be removed from these sites.
- After 15 March, students who are still conditionally registered will not be able to access eFundi. Therefore, please ensure that you are registered by this time.

Also take note of the following important information:

- All outstanding registration requirements, whether financial or academic, necessary to complete student registration, must be fulfilled by no later than 15 March 2021
- Failure to complete registration by the date above will result in the cancellation of such conditional registration
- If a student fails to complete registration, the student's access to eFundi will be cancelled and the student will not be entitled to any credit for any teaching-learning activities completed during this period
- Conditional registration and access to eFundi do not give a student any rights to access university premises or university residences, or to receive data. In addition, they do not create any right, expectation or guarantee that a student will be registered; and
- If a student's registration is not completed, irrespective of the reason, a student will not have any claims against the university for any damages or losses suffered due to non-registration. A student will have no claim, or have any rights, to be registered as a student of the university.
